REPORT OF COUNTY COMMISSIONERS.

To the Citizens of Strafford County :

We respectfully submit our annual report together with those of other county officials for year ending December 31, 1904.

This is the last report of the present board of commissioners and we feel that while we may not have accomplished all that we might desire, or all perhaps that we could, if we were to go over the grounds again, notwithstanding our mistakes, when all circumstances are considered, we think we have a right to feel some satisfaction at what has been done.

At the farm many changes have been made during our term of office and we believe these changes have been of great improvement to the place. They have been called to public notice each year, so any detailed account of them is unnecessary. When we took charge of affairs there was not a single registered animal on the farm; today there is not a grade animal among the neat stock, all are pure bred and registered or eligible, and we are sure Strafford county owns three herds as good as can be found in New England. They are Holsteins, Ayrshires and Guernseys. This condition is also true of the swine; pure bred Yorkshires and Poland Chinas.

Some criticisms of the action of the commissioners in making these changes have been made, but we are confident that the better prices obtained for this quality of stock and our standing with the other counties of the state all goes to show the wisdom of this movement.

Right here we want to speak of a matter regarding which there has been considerable talk, that of exhibiting the stock at the Fairs during the Fall. It has been said that not enough has been taken in premiums to pay expenses, which is not true. The facts are that \$447.00 was received in cash and the total expense, (including Rochester fair where the stock was not in competition and nothing received), was \$278.88, leaving a

balance of \$168.12. In addition to this there was received for milk sold from the cows while at the fairs \$44.03. This together with the advertisement of the stock makes a very respectable showing.

We have made some change in the working animals on the Farm by selling some oxen and buying another pair of heavy horses. The amount of work done during the fall shows the wisdom of this change.

We would call your attention to the superintendent's report for a detailed account of the improvements made during the past year. In addition to this, almost an entirely new outfit of farm machinery and tools has been purchased and we consider the Farm is now as well equipped as any in the state.

A new operating room and arrangements for care of surgical cases has been put in and we refer you to the physician's report for a full account of the same.

There are still other improvements needed that we believe should be made as fast as the county's finances will allow. We refer more particularly to new beds throughout the Inmates' Apartments; think these should be of iron with spring and mattress and can be purchased at a reasonable cost. A new Laundry is needed and when the change is made a new building should be built for this purpose alone.

We would also advise arranging some rooms for old men and their wives that they may live together; would suggest that the school room, so called, be remodeled for that purpose. A few steel cells are needed for the House of Correction.

At the Court House repairs and changes begun last year have been completed and the Probate Court room has been enlarged and newly furnished, new furniture has been put into the Judge's private office and Commissioners' room and other furniture throughout the building put in good repair, and while we think the building and furniture is in better condition than for a long time, we do believe that as a matter of economy it will be necessary to have the inside wood work refinished, and at some time in the near future.

At the Jail, repairs have been made to the stable. Additional kitchen fittings have been put into a room in the basement

for use as a cook room for the prisoners; storm doors and minor repairs to the jailor's house.

At the House of Correction there has been confined a large number of prisoners during the year and they have been worked on the farm under competent overseers and a large amount of work has been done. During the year there have been 272 commitments, 12 escapes and 9 returned, leaving 3 at large. Since April 1, 1904, there has not been a successful attempt at an escape.

We desire at this time to return our thanks to Mr. and Mrs. R. M. Handy, superintendent and matron at the County Farm, and all employes and officials for the able manner in which they have discharged their duties.

Respectfully submitted,

WILLIAM T. WENTWORTH,	}	County Commissioners.

REPORT OF SUPERINTENDENT.

To the Board of Commissioners for the County of Strafford :

GENTLEMEN—I herewith submit to you my annual report of the Strafford County Farm and House of Correction for the year ending Dec. 31, 1904. A new system of plumbing has been put in the inmates' wings of the main building, and granalytic floors laid in men's bath rooms. The system of plumbing is unsurpassed in this state.

The carriage house and stable have been remodeled. In the latter, iron mangers and hay racks and iron troughs have displaced the wooden ones previously in use. New floors have been laid in the piggery, and a new silo built in the cow barn. The old dynamo had to be replaced by a new one, which is giving entire satisfaction. The mound on which the victims of the asylum fire were buried has been ploughed, graded and seeded. At some time considerable loam has been removed at the foot of the hill and nearly two thousand loads of rock were required in grading. The old fence has been removed and the hill put in a condition fitting to its use.

All rocks have been removed from the grove near the Ice House, and three-quarters acre of land at the end of the grove cleared of stumps and ploughed. Five acres of pasture land have been cleared of stones and ploughed and twelve acres of pasture cleared of stones, ploughed and seeded. Ten acres of land on the flat near the river have been made tillable by removing stumps and rocks and ditching. One hundred and eighty rods of ditch four feet wide and five feet deep were dug, connecting with the river. This was filled by the rocks taken from the grove and various fields. The result is a fine underground drain and a valuable piece of land. The old sewer ditch, the use of which was discontinued last year, has been filled and now the lower part of the farm is all in one large field. In all thirty-eight acres have been ploughed and seeded

since July. The excavating, grading and improving of land have been done by prisoners.

The stock has been constantly improved, until at this writing there is not a grade animal on the farm. Citizens of the county should take great pride in the stock, many animals of which are unequalled in New England. To the commissioners, whose advice and judgment have been of great value, I extend my sincere thanks. I wish also to acknowledge the kindness and efficiency of Dr. F. L. Keay and our chaplain, Rev. H. E. Shattuck. Much of the year's progress and success is due to the hearty co-operation of my employees.

Respectfully submitted,

RODOLPHO M. HANDY,

Superintendent.

REPORT OF PHYSICIAN.

To the Commissioners of Strafford County:

GENTLEMEN:—I herewith submit my report as county physician for the year ending Dec. 31st, 1904.

There has been a great deal of sickness at the farm during the past year, but the number of deaths is less than usual.

The Snell house, which was fitted up over a year ago for a hospital for contagious and infectious diseases, has been used several times and has already proved the wisdom of following out my suggestion of two years ago. What we have sadly needed is an operating room at the farm and I take this occasion, gentlemen, to thank you in behalf of those at the farm, who may need surgical attention, for your generosity in this matter. By the time this report is printed, we expect to have an operating room at the farm, equipped as well as any at any county institution in the state. I wish to thank you also for your liberality in always granting me whatever I have expressed a desire for in carrying out my work. I also wish to thank Supt. and Mrs. Handy and Supt. Handy's mother for their kindness and assistance, and particularly the two ladies mentioned, who have acted as nurses and taken personal interest in all the sick inmates ever since they have been at the institution.

Respectfully submitted,

FORREST L. KEAY, M. D., County Physician.

To the Commissioners of Strafford County:

GENTLEMEN:—I submit the following report as physician to the county jail for the year 1904. No deaths. In the majority of cases the disease has been contracted before the person was admitted, and in a large proportion of the remaining cases, the cause has been due to confinement and the want of proper exercise.

The sanitary condition of the jail is excellent.

H. O. CHESLEY, M. D.,

Physician to county jail.

REPORT OF CHAPLAIN.

To the Commissioners of Strafford County:

GENTLEMEN:—The usual services have been held at the county farm. The interest shown by the inmates has been if anything more gratifying than last year.

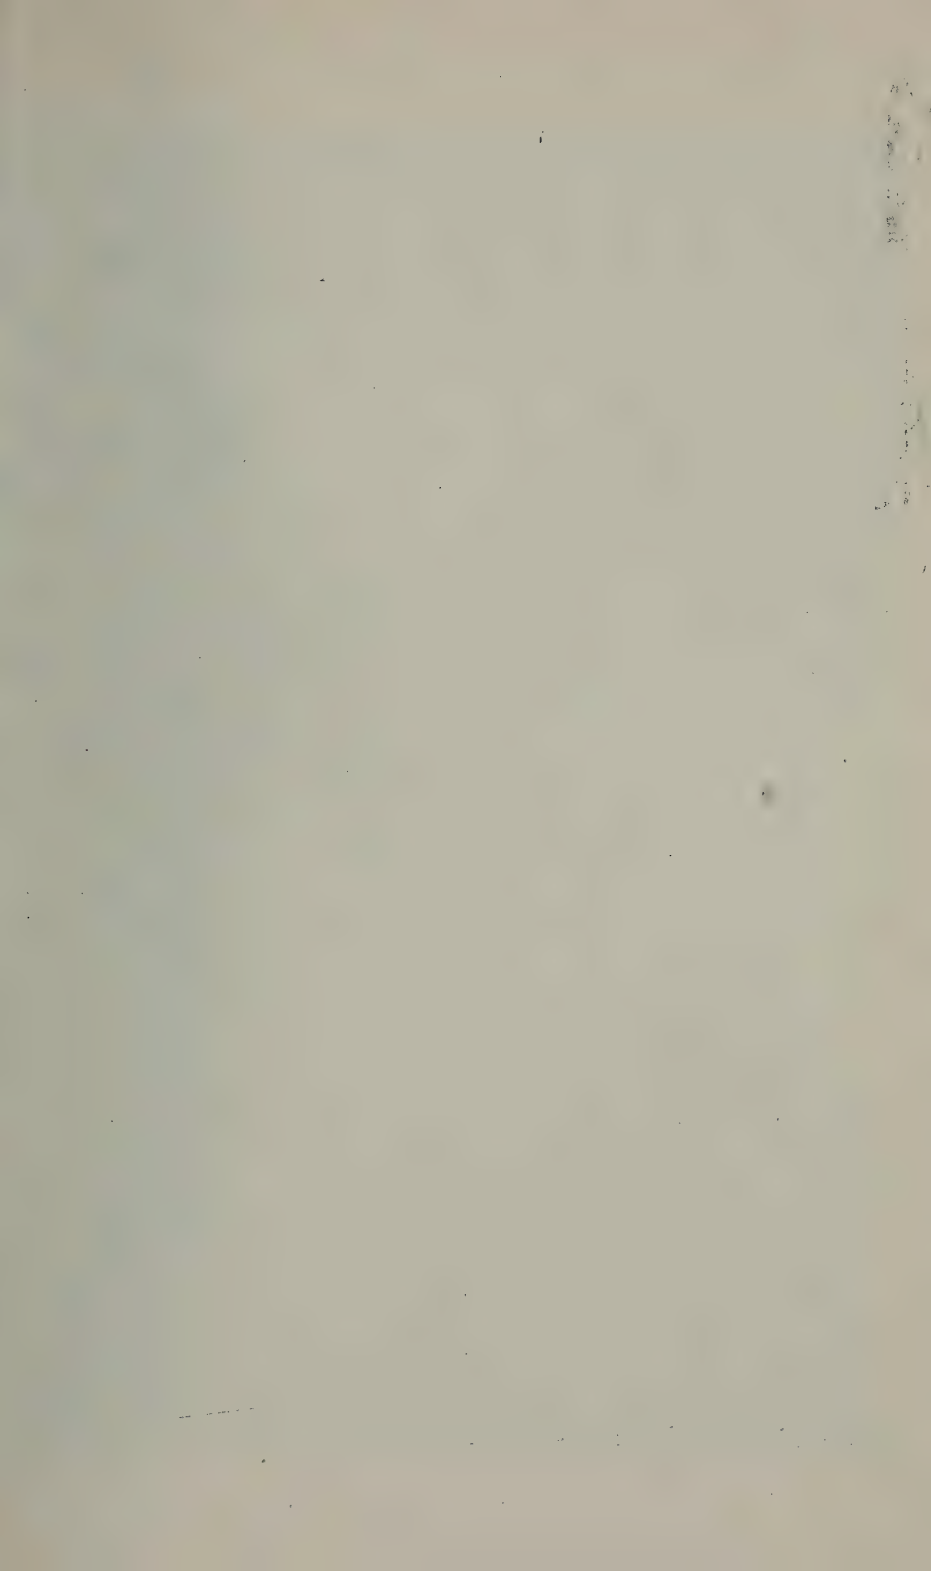

I have had the hearty co-operation of the superintendent and wife, Mr. and Mrs. Handy. Their interest in the spiritual welfare of all has made my work a pleasure.

The commissioners have done their best to make my work a success. I have been convinced of their ability in the various departments of their work. I am also satisfied that they made no mistake in selecting the present superintendent.

I desire, also, to thank the churches and citizens of Dover and vicinity for their contributions of literature, and also for the money donated for the Christmas tree.

Respectfully submitted,

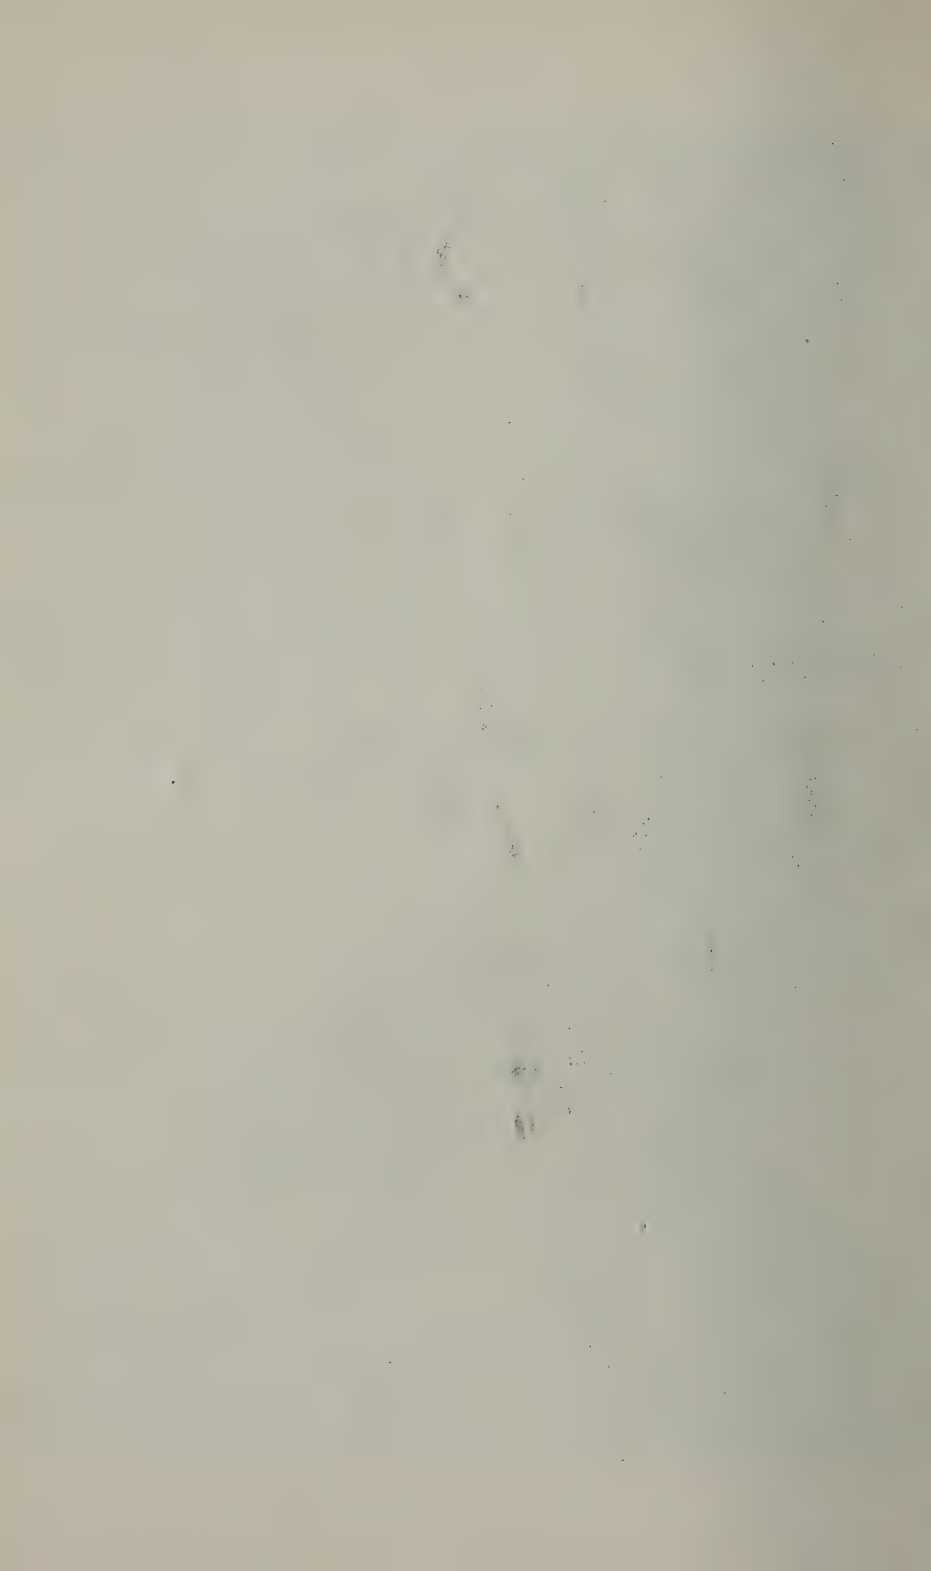

HARRY E. SHATTUCK, Chaplain.

STEPHEN D. WENTWORTH, County Treasurer.

AUDITORS' REPORT.

DOVER, N. H., January 18, 1905.

We hereby certify that we have examined the accounts of the county commissioners, superintendent of the county farm, jailer, and county treasurer for the year ending Dec. 31, 1904, and find the same correctly cast and properly vouched.

We further certify that the sums named in the vouchers examined by us are, to the best of our knowledge and belief, according to the market values of the articles charged therein, and we believe such articles to have been used for the benefit of the county.
